ATF Compliant Bound Book and e4473

For Federal Firearms Licensees

FFL records are the #1 focal point of an ATF Inspection. Your license depends on accuracy. Our software helps keep you compliant as well as speed up the process.

Proven Track Record

Our staff has processed over 5 million ATF transactions, reducing client violations.

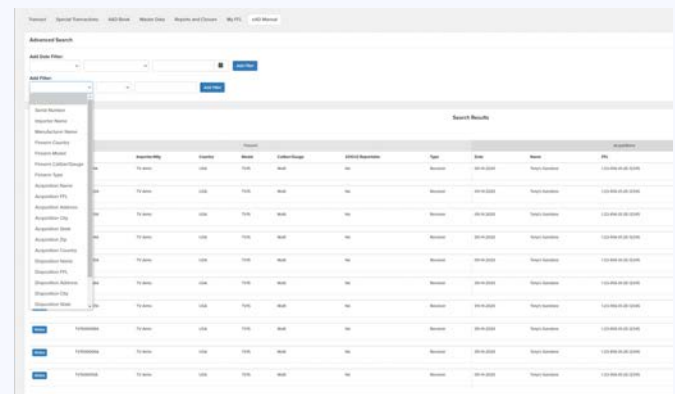

Integreated e4473

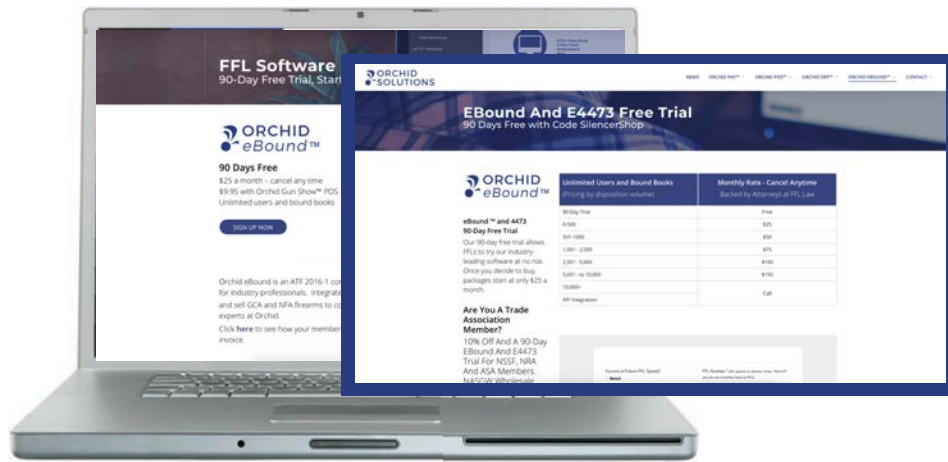

Orchid eBound™ is integrated with a best-in-class ATF Form 4473. Utilize our data controls to minimize top ATF inspection risks, including NFA products.

Included Features

- Unlimited bound books and user logins
- ATF 2016-1 and 2016-2 compliant
- Digital signature capability
- ATF Forms 3310.4 and 3310.12
- Backed by the attorneys at FFL Law

Save Time and Money

Reduce employee time spent on compliance by up to 40%. The FFL EZ Check integration means employees use fewer keystrokes to enter critical information. Our extensive reports and innovative search function allows you to do more in less time.

Bulk Processing

Reduce your workload with our bulk processing tool. The Excel template helps you load data fast.

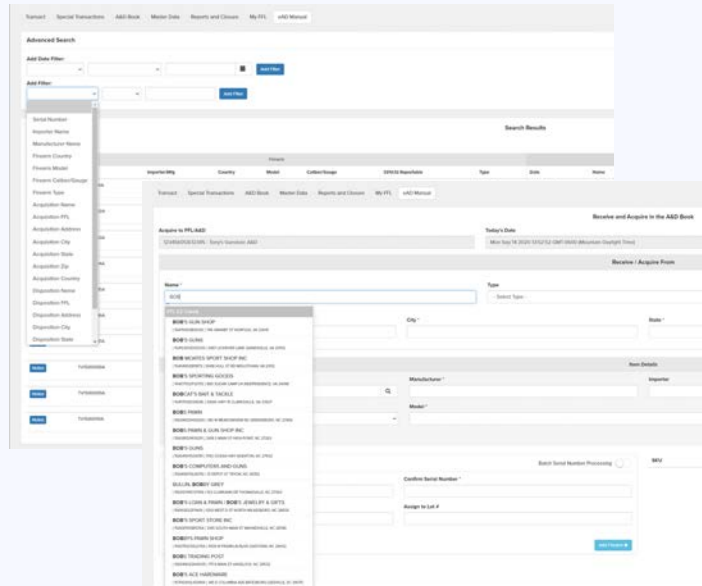

Software Integrations

Use our API to integrate with major ERP or POS software systems, automating processing.

Barcode Scanning

Tag your firearm inventory, scan your receipts, and process firearm transactions faster.

Save with Orchid Gun Show

Get Orchid eBound for only \$9.95 a month when combined with the purchase of Orchid Gun Show Mobile POS. Our flexible point-of-sale solution and its sister products, Orchid Gun Show Plus and Orchid Gun Show Select give you the power to buy and manage inventory, process customer transactions, accept credit cards and produce dynamic reports.
